

NEWMAN
FIREPLACES LTD

Medistone *collection*

Welcome to the

Thank you for showing an interest in our natural Medistone fireplaces.

Newman Fireplaces have become synonymous with high quality fireplaces at a reasonable price, a reputation we are proud of.

As you browse through this catalogue you will find a very comprehensive range. There are styles to suit almost any room from traditional to the more contemporary including many designs that have been created from our in house design team enabling us to offer many truly unique designs that are full of style. We carefully select our natural stone for the very best available quality and ensure our fireplaces are manufactured to the highest standards using both modern and traditional methods. Our stone masons are highly skilled and many are the third generation of very talented stone masonry families.

Our Medistone natural stone has real charm and movement that create a fireplace of immense appeal each having its own unique character. We select our stone from source at the stone quarries to enable the purchase of only the very best available material.

Most of the fireplace designs shown have honed black granite hearths shown. However if a stone hearth is your preference this can be specified. For solid fuel or wood burning fires the hearth is supplied in usually three sections to allow thermal expansion for this type of appliance, for gas and electric fires one piece hearths can be used.

Please note that the fireplace models shown will include the natural stone fireplace and black granite hearth, all other products shown including all stoves, all vermiculite boards and any other items shown in the pictures are not included in any fireplace sale, these can be purchased as optional extras if so desired. Should your requirements be to use a conventional inset fire all fireplaces in this brochure can be adapted accordingly.

We supply only to fireplace retail specialist within the UK. This has the advantage of viewing some of our products usually within close proximity to where you live. Also your chosen retailer can offer professional advice and surveys for you chosen product giving you total peace of mind, a very important part of any fireplace purchase. Any description used to describe each fireplace is the view of the editor only and must not be used as a factual statement.

Fireplace Product of the Year 2011

Fireplace of the Year 2011

(Taberno Fireplace - P4)

Fireplace Suite of the Year 2011

TELEVISION

We recently supplied a stone fireplace for the ITV show '60 minute makeover', see pictures below.

Important:

This brochure is for the sole purpose of displaying the medistone fireplaces, all other items shown in each picture including stoves, electric fires, down lights, vermiculite panels etc. etc. are not included in any fireplace sale. Down lights must not be used with any solid fuel or wood burning appliance. If using any solid fuel or wood burning appliance, hearths and back panels must be secured to allow for thermal expansion, ask your chosen fireplace retailer for further advice. Any description used to describe each fireplace is in the view of the editor only and must not be used as a factual statement.

Product Guide

All of our Medistone collection is manufactured from natural stone and as such, natural variation will occur. This will include shading, veining, fossils and crystal markings. This is the beauty of a natural stone product which sets it apart from any mass produced man made counterpart.

Every effort has been made to show correct colour representation, although we guarantee our green stone to be within a 10% variance. All stone is supplied to view fireplaces and samples at their fireplace dealer.

Most of our Medistone range is normally suitable for compatible multi fuel or wood burning stoves & gas stoves, however subject to your chosen appliance will depend if the hearth requires sectioning & abbing, please ask your fireplace retailer for advice.

NOTE: The Palencia model is only suitable for compatible gas or electric fires, if compatible solid fuel fires are to be used the hearth will require sectioning, please ask your fireplace retailer for advice.

Newman Fireplaces Ltd Policy is one of continuing improvement, we therefore reserve the right to alter material, design and specification without prior notice. It is strongly recommended that your chosen fireplace dealer surveys your chimney and any relevant items before purchasing any of our products.

It is advised that when the fireplace has fully dried after installation, that all surfaces are sealed with a suitable stone sealer, ask your fireplace dealer for advice.

All Newman products should be inspected before installation for quality and damage. No refund can be given after the event.

All of our products must be installed by suitably qualified, competent and experienced installers complying with all relevant building regulations and any rules in force.

TABERNO

The Taberno must surely be a collectors piece of the future. Fireplace architecture at its very best. This design has solid stone carved shaped and fitted legs together with the curved header and shell to give a fireplace of impressive proportions. Shown with Stoven™ Mayfair SE wood burning stove and stone pattern design to vermiculite chamber.

The Stoven™ Mayfair SE wood burning stove shown is unique, as this all new patent pending designed stove incorporates the following features: separate very large panoramic curved glass panel and door so you can enjoy watching the fire burn with maximum effect. An integral oven built into the lower part of the stove with separate door enabling cooking, heat for cosy nights in around the fire, also a great back up for cooking in emergency situations. There is mains supply flue. Air wash system to gases. Attractive design. 78.8% efficiency. Clean burn technology. CE approved. Smoke exempt approved, to allow burning in smoke controlled areas. The Stoven™ Mayfair SE is shown with the standard legs. Shorter legs are available as an optional extra if there are any height restraints for stove installation.

The vermiculite stone patterned chamber is also available in the following designs: Herrington brick design, Reeded design and Brick Bond design. There is the option to select any of these designs enabling you to mix and match to your choice.
